

August 2020

Dear friends and family of the preborn child,

Recently, a newscaster, lamenting the violence on our city streets and the shootings of children, was caused to ask the question "When did we lose respect for human life?"

The pro-life community has the answer.

The wife of a police captain killed in the violence was heard to say after her husband's tragic death, "We need to be teaching our children about the sanctity of human life."

In protecting the sanctity of human life, possibly the best analogy I've ever heard was given by a physician from England at a Maryland Right to Life meeting years ago. She held out her hands, cupping them as though she were holding water and she said "**Protecting the sanctity of human life is a little like cupping water in your hands. You have to hold your fingers very tightly. If you give just a little bit, you lose it all!**"

There is an excellent opportunity here for the pro-life community to speak up in answer to these questions and have their voice heard sincerely.

Yours very sincerely and respectfully,

R. Martin Palmer

P.S. The word '**PREBORN**', you will be happy to know, has now been included in Webster's Unabridged Dictionary. All those who advocate for the equal humanity and personhood of the preborn child need to adopt the term '**PREBORN CHILD**'.

"Un" is negative - unwanted, unloved. Someone counted and Justice Blackmun, in authoring the infamous Roe v. Wade decision used the term "unborn" 104 times.

We all remember President Trump's last *State of the Union* address in which all those dressed in white sat on their hands as he spoke eloquently: "Let us work together to build a culture that cherishes innocent life. And let us reaffirm a fundamental truth: all children – born and **unborn** – are made in the holy image of God."

How much better if President Trump were to say "born and **preborn** are made in the Holy Image of God". Perhaps the President will begin to use the word 'preborn' now that Webster has included the word in their unabridged dictionary.
